Recycling Drop Off Day

PCRecycler, Inc
Protecting your Business and the Environment

THANK YOU for supporting electronics recycling. Please note that **we recycle 100% of all material** that enters our facilities by metal and plastics recovery and **nothing is exported**. This service is provided to raise awareness about the dangers that improper disposal of computers can impose on all of us. This event is provided as a community service.

We provide pickup, recycling and data destruction/shredding services for businesses. Please tell the company that you work for to recycle their computers with PC Recycler.

Thank you for recycling! Check us out on the web at **www.pcrecycler.net**.
